SEASON 2 – The Riviera Collection

MENZA by Véronique De Kock – The Riviera Collection

Following the success of their first collaboration, MENZA and Véronique De Kock reunite for a second collection that goes beyond interior design alone.

Welcome to **The Riviera Collection**.

This collection is a refined fusion of two iconic lifestyles: the effortless luxury of the **French Riviera** and the timeless authenticity of **Tuscany, Portofino and Forte dei Marmi**.

It evokes sun-drenched terraces, long lunches, natural textures and an atmosphere where elegance feels instinctive, never forced.

The Riviera Collection embodies the **Southern art of living**. Soft, inviting and thoughtfully designed. Each piece tells a story of calm, craftsmanship and character. Honest materials, warm silhouettes and a palette inspired by Mediterranean light bring a sense of ease — both indoors and outdoors.

For the first time, this collaboration fully embraces **outdoor living** as an integral part of the MENZA universe. Outside becomes an extension of inside. A place to gather, unwind and enjoy life from early morning light to golden evening hours.

As always with MENZA, it's not about trends, but about emotion. Not about individual pieces, but about a complete way of living.

The Riviera Collection invites you to slow down, savour the moment and let your speak the timeless, sun-kissed language of Véronique De Kock & MENZA.
